This solar water pumping system is widely applied in farmland irrigation, ranch ...

Using Franklin quality components, our technical expertise in groundwater pumping, and innovative thinking based on global market inputs, we have developed a rugged, high-output solar-powered pump system which ...

Experience efficient water pumping with the 2.2kw Solar Pump Inverter AC Three Phase 460V - GLP2K2H system for your solar needs. Maximize your energy!

This solar water pumping system is widely applied in farmland irrigation, ranch water supply, and desert management, offering exceptional reliability and adaptability for outdoor environments.

The 2.2 kW 3-Phase INVT Solar Water Pump Inverter is engineered to effectively convert solar energy into electrical power for driving three-phase water pumps. This inverter is ideal for various applications, including ...

Powerful 2.2kW Motor: Experience unwavering performance and consistent high-volume water delivery, powered by a robust 3hp motor. Durable and Reliable: Engineered with high-quality stainless steel for long-lasting ...

Tuhorse THS series submersible solar powered water pumps eliminate the need to be on a power grid at very competitive prices. In a typical live stock farm, a one time affordable investment on a Tuhorse green energy ...

Buy 2kw solar water pumps with stainless steel construction and controller for deep wells at prices from \$148.2 to \$500. Available for purchase in quantities of 5 units or more, ideal for wholesale and resale.

Our Pro Series D systems use hearty 3-Phase Motors and 3.9? Pump Ends. Our controllers are the best in the world and allow customization and optimization based on sun and season.

2 kW solar water pump

The definitive guide to solar water pumps. We cover how they work, how to size the right panels and pump for your project, costs, and installation. Use our interactive calculator to design your system.

Only asynchronous type pumps can be used. This inverter uses "either" solar or AC input source to power load. Please remember to NEVER connect both power sources (solar and AC input) at the same time as this will ...
