Manufactured glass plates range from 1,200 mm x 2,400 mm to 2,650 mm x 2,800 mm - matches perfect for Chinese solar panels. The capacity of one line varies typically from 125 to 300 tons per day.

So, whether you are a solar product manufacturer, glass fabricator, solar equipment supplier or turnkey system provider, Glasstech has the solution for you. Solar glass heat-treating systems designed with ...

Customized ITO / FTO conductive glass plays a crucial role in scientific experiments, offering excellent conductivity, transparency, and stability. Ideal for photovoltaics, sensors, and analytical instruments.

As one of the industry leaders in the implementation of turn-key projects, HORN was awarded the contract for the supply of a brand-new end fired solar glass furnace by Glass Technology.

Let the light in with Mitrex Solar Glass -- a powerhouse in disguise, where photovoltaics meet limitless design, where color meets clarity. You're not just choosing glass; you're choosing a future where ...

The pattern glass will be used as cover glass of PV module. The world's PV market is booming. The ultra-clear glass will meet the market demand of Turkey & Europe.

Our extra clear solar glass offers superior solar energy transmittance and is stable under solar radiation. It also survives harsh environmental conditions and protects the sensitive components of solar ...

The new 300 t/d line will be equipped with the latest HORN technology and is designed to produce low-iron solar glass with Anti Reflective Coating. The glass factory will be set up from ...

Float process glassworks manufacturing melting capacity in series scale 100t/d, 200t/d, 300t/d, 400t/d, 500t/d, 600t/d, 700t/d, 900t/d, 1000t/d. and glass thickness 3-25mm width 3500-4500mm with key ...

Crafted with heat-treated safety glass, our photovoltaic glass provides the same thermal and sound insulation

300t solar glass

as traditional options, flooding spaces with natural light. Perfect for façades, curtain walls, ...
