Solar is a smart renewable energy investment, yet scams and illegitimate companies exist in the industry. It's crucial to research thoroughly and be cautious of potential solar scams.

While you are browsing solar power companies, one of them may offer to install a solar panel or solar roof in your home for a small cost or even for free. It's an intentionally misleading claim.

Many companies allegedly participate in fraudulent practices in an attempt to scam homeowners out of their money. Despite this issue, the solar industry is continuing to broaden its reach.

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...

The Treasury Department works with other federal agencies, including the Consumer Financial Protection Bureau (CFPB) and the Federal Trade Commission (FTC) to spread the word about ...

Solar panel scams target homeowners interested in installing solar energy systems. They involve scammers making false promises or tricking you into paying for services you'll never ...

While you are browsing solar power companies, one of them may ...

Clean energy scammers often claim to offer a special deal -- if you act right now. If you feel pressured to act immediately on a solar or other renewable energy deal, just say no, advises ...
