Does Argentina have a battery storage tender?

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, managed by CAMMESA, offers long-term contracts with fixed payments and financial guarantees to attract developers.

Does Argentina have a battery energy storage system?

Argentina has taken a major step toward modernizing its energy infrastructure with the launch of a 500 MW battery energy storage system (BESS) tender under the AlmaGBA program.

What does Argentina's 1.3 GW battery storage tender mean for Latin America?

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

Why is Argentina a good stance on energy storage?

In Argentina, the stance provides a good lesson to the European stakeholders, especially in the commercial and industrial segments of energy storage. Emerging markets can present both local and foreign players by developing tenders that are investment appropriate and clear technically and financially secured.

Argentina has awarded 667MW of battery energy storage system (BESS) in its first tender under the AlmaGBA scheme.

Integrating Battery Storage for a Reliable Argentina solar BESS Grid Beyond pure generation, Central Puerto is future-proofing its renewable assets by investing in energy storage.

The Argentinian government opened the bids this week for its AlmaGBA tender process. The international tender, first announced in February, aimed to secure 500 MW of energy storage ...

Argentina launches a 500 MW battery storage auction to boost AMBA's energy reliability, supporting a sustainable shift to renewable power and modernizing the energy sector.

Introduction: Argentina at the Energy Crossroads As of February 2026, Argentina's energy landscape is

Argentina solar Charging Pile Energy Storage Project

undergoing a pivotal transformation. The successful awarding of landmark tenders, ...

Argentina's 1.3 GW battery storage tender marks a transformative leap toward grid resilience and clean energy leadership in Latin America.

Marcelo Álvarez, Director of Strategy and Institutional Relations at Coral Energy, believes energy storage will become competitive in Argentina by 2026 or 2027 and anticipates that ...

Argentina's first energy storage tender drew 1.347 GW of bids from 15 companies proposing 27 projects, exceeding the 500 MW target and representing more than \$1 billion in ...

Argentina has opened a \$500 million battery storage tender aimed at adding 500 MW of new energy storage capacity in the Buenos Aires metropolitan area. The AlmaGBA program, ...
