Located to the South of Bandar Seri Begawan, the village of Kampong Ayer has been identified as an integral part of Bandar Seri Begawan's sustainable and smart city development plan.

Our expertise in utility-scale solar power generation, custom folding containers, and advanced energy storage solutions ensures reliable performance for various applications.

Designed to integrate renewable energy sources like solar and wind into the national grid, this initiative addresses the intermittent nature of clean power generation.

In 2024, the Seri Energy Park debuted Southeast Asia's first hybrid solar-storage microgrid. By day, it stores excess solar power; by night, it powers 5,000 homes.

The Moldovan Ministry of Energy is seeking 60MW of solar PV capacity in the tenders, with solar project capacity limited to a maximum of 1MW each, while a price cap has been set at EUR86.7/MWh ...

Contact our technical sales team for containerized solar and energy storage solutions. We provide customized quotations based on your specific project requirements and energy needs.

As the nation diversifies its economy beyond oil and gas, solar power projects like the Bandar Seri Begawan Photovoltaic Solar Panel Factory are becoming critical to achieving sustainability goals.

Clean energy sources like wind and solar have a huge potential to lessen reliance on fossil fuels. Due to the stochastic nature of various energy sources, dependable hybrid systems have recently been developed.

BESS Energy Storage & Photovoltaic Solutions Our BESS energy storage systems and photovoltaic foldable container solutions are engineered for reliability, safety, and efficient deployment. All systems include ...

In addition to setting up major swabbing centres, an additional National Virology Laboratory in Kampong Sumbiling, Bandar Seri Begawan was constructed to increase the capacity and accelerate the testing ...
