This project aims to implement a battery energy storage system (BESS) for EPBIH, aimed at enhancing the decarbonisation of the energy sector in Bosnia and Herzegovina.

Search all the announced and upcoming battery energy storage system (BESS) projects, bids, RFPs, ICBs, tenders, government contracts, and awards in Bosnia and Herzegovina with our ...

Licensing and feasibility studies are already underway - the goal is to create a modern, resilient and green energy infrastructure. This is not only a technological development, but a strategic ...

This paper gives a comprehensive analysis of the economic viability of two of the currently most cost-effective electricity storage technologies: pumped hydro storage (PHS) and lithium-ion (Li-ion) when ...

Construction of Iovik, the largest renewable energy project in BiH to date, was completed in 2023 and the project entered its trial operation phase in 2025.

Bosnia and Herzegovina is set to have its first battery energy storage systems installed in the transmission network, which will provide auxiliary services.

Bosnia and Herzegovina is a self-sufficient, net exporter of electricity. However, its energy sector relies mostly on fossil fuels, in addition to hydro and a negligible level of renewables.

With this decision, Bosnia and Herzegovina has become obliged to transpose and implement EU requirements on integrated energy union management and climate action in the framework of the ...

This energy storage cabinet is a PV energy storage solution that combines high-voltage energy storage battery packs, a high-voltage control box, an energy storage PV inverter, BMS, cooling systems (an ...
