AVID GROUP provide a whole range of SPS (Stand Alone Power Systems) and Containerised Off-Grid Solar Energy Solutions. 20ft and 40ft shipping containers with bolt-on solar arrays and battery storage.

A complete solar-battery-generator power plant pre-built into a shipping container. We integrate the inverterchargers, lithium batteries, DC charge controllers, switchgear, ventilation/air-conditioning, ...

An Off-Grid Solar Container delivered to the property before construction began. The container provided clean, consistent power throughout the entire build process--running saws, drills, welders, and site ...

It's a modified shipping container built to house solar panels, batteries, inverters, and other off-grid power systems. These units are ideal for powering remote sites, construction camps, emergency ...

Whether you're powering a remote agricultural site, supporting early-stage infrastructure, or replacing diesel on a mining project, our container delivers solar power -- all in one rugged, transportable unit.

The solar array is mounted directly onto the container, and can provide both off-grid and grid-tied functionality, with all necessary equipment to ensure safe and efficient operation installed within.

Browse our range of containerised off grid systems for commercial sites. Reliable, turnkey solar power solutions for remote, off-grid energy needs.

As a local Canberra-based business with 8+ years of proven expertise, Solar4Life specialises in delivering fail-safe off-grid solar systems for rural NSW--including Yass, Goulburn, Cooma, ...

We have years of experience installing a huge range of off-grid system with our in-house installers. We help you can achieve the same lifestyle as those connected to the grid.

Our certified solar specialists provide round-the-clock monitoring and support for all installed photovoltaic
