Our climate controlled storage cabinets deliver stable temperature and humidity, so rubber, polymer, and composite materials age slower, inspections pass more often, and field crews stay ready.

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

KonkaEnergy Outdoor Separate Battery Cabinet Series (215kWh) The KonkaEnergy Outdoor Separate Battery Cabinet Series, a safe, reliable, and highly scalable solution designed for modular energy ...

To meet the requirements of energy storage systems with different voltage levels from 48V to 2000V, HyperStrong has reliable solutions, rich practical experience and a large number of successful cases.

Outdoor cabinet products use high-performance LFP cell, cycle life up to 8000 times. Products adopt an active balance solution, built-in cloud equipment, support remote maintenance and monitoring, and ...

The 112kWh Outdoor Energy Storage Cabinet is equipped with an active thermal management system that ensures optimal battery performance and longevity. The air-cooled design maintains a stable ...

CHAM has been focus on new energy core technology for 20 years, providing customized products and services to customers with its professional pre-sales and R& D teams.

This integrated energy storage solution widely used in power systems, industrial, and commercial applications. All-in-one design, store the leading brands of 19" rack mount type lithium batteries, ...

Standardized and scalable design for long-lasting, intelligent energy storage. Compact footprint with high single-cell energy density. Single cabinet footprint reduced by over 20%, with multi-unit scalability for ...

Constant Temperature and Humidity Type Energy Storage Cabinet for Bridges

SLENERGY provides advanced energy storage cabinets with intelligent control, high safety, and long-term performance for commercial and industrial power applications.
