If you have engineering project needs, we can customize the solar mounting system solution for you according to your project location, climate environment, cost budget and so on.

C-channel steel is a shape of steel section with a C-shaped cross-section, given by a vertical web and two horizontal parallel flanges that extend to only one side of the web.

Our products are delivered as drilled, shaped, cut to desired length and galvanized in accordance with the demands of our customers in our fully automatic lines. C shape is used as purlin and belt in steel ...

Zhongding Steel is a diversified private enterprise with business covering stainless steel, carbon structure steel, alloy steel, etc. And established a number of joint-venture steel production lines with ...

Features: 1. Manufactured from high tensile galvanized steel 2. Pre-punched holes based on detail design. 3. C purlin may be used in single spans and continuous spans in multi-bay buildings. 4. We ...

"For 16 years, YHeng Group has manufactured solar C-channels that meet global standards through ISO-certified facilities. Our galvanized profiles feature proprietary DuoSeal(TM) technology achieving ...

Product name:c-type steel photovoltaic bracket Solar Mounting System;Application:Solar frame, structure;Grade:Q195/Q235/Q235B/Q345/SS400/A36;Standard:AiSi ASTM GB JIS EN;Surface ...

? Q235B/Q355B ? : Standard carbon steel for inland projects (cost-effective, tensile strength: 375-500 MPa). ? Q355D/Q420C ? : Low-alloy grades for Arctic applications (e.g., -35°C impact ...

We are a physical factory specializing in the production of photovoltaic brackets, earthquake-resistant brackets, cable brackets, and punched C-shaped steel....
