Navigate state and local permitting for BESS projects with expert insights, regulatory steps, and strategies for successful energy storage development.

On July 4, 2025, the legislation commonly known as the One Big Beautiful Bill Act (OBBBA or H.R. 1) became law.

Explore key legal considerations in energy storage systems, including regulatory frameworks, land use, contractual obligations, data security, and future policy trends.

Foreign entity of concern rules in the OBBBA expand clean energy tax credit restrictions, reshaping eligibility and compliance starting in 2026.

Let's take a closer look at what we know of FEOC restrictions today as they apply to technology-neutral tax credits for solar and energy storage projects. In addition, you'll see our ...

This database compiles publicly available information about moratoriums, bans, and other local restrictions that affect stationary battery energy storage system (BESS) permitting, siting, ...

FEOC rules can disqualify your battery storage project from the 30% ITC. Learn compliance thresholds, prohibited manufacturers, and how to protect your credits.

New FEOC -- for "foreign entity of concern" -- rules will deny technology-neutral tax credits on new power plants and energy storage projects that use too

These barriers may include inconsistent state policies, which affect how energy storage can interact with existing energy resources, permitting complexities that delay project timelines, and ...

The One Big, Beautiful Bill Act includes new restrictions on technology-neutral tax credits, including

# Energy storage project restrictions

project-based tax credits and the "45X" manufacturing tax credit which can be claimed by ...
