-----

Unbox the Eyewear II and one finds a rectangular, material case with a zip that both acts as case and wireless charger when the glasses are inside. The glasses themselves are thick, black, and...

HUAWEI Eyewear 2 provides 11-hour comfortable listening, open sound field and private acoustics. Adapting stylish design and premium materials, it offers comfortable wearing experience, suitable for different occasions.

Summary: Huawei's photovoltaic glass technology is transforming how industries harness solar energy. This article explores its applications, efficiency benchmarks, and why it's becoming a top choice for commercial ...

Crafted with a lightweight titanium frame weighing only 4.7 grams, these glasses offer both style and comfort. Users can even opt for Zeiss prescription lenses, blending fashion with...

New-gen Huawei Eyewear 2 Titanium hollow + silver edition is now official with round frames and optical lenses. The new smart glasses are so transparent that they give a hollow-like feel between the ...

There are two versions of the Eyewear II available: The rounder Myrna or the narrower Lang (pictured). You can get either with polarized lenses, but there's also the option of prescription lenses in...

If you've ever bought spectacles, then you'll know a choice of two designs is no choice at all. Huawei has four options, two sunglasses and two with clear lenses ready for prescription glass.

Each Temple has its own BT/Audio Soc and dedicated BT Antenna. Temples have no wire connection between each other. The glasses are equipped with two microphones which allow voice control. ...

And because of technology innovation, numerous companies have entered the smart glasses field including consumer electronics and telecom equipment vendor Huawei. Huawei's Eyewear 2 smart ...

China's Huawei Technologies has launched an upgraded version of its smart glasses with simultaneous translation and other AI-powered features, in a market where competition is intensifying.
