On April 22, Foxconn Group announced its commitment to the RE100 initiative, pledging to use 100% green power in its global plants by 2040.

We implemented a turnkey rooftop photovoltaic power plant with a capacity of 457.5 kWp for its production plant in Pardubice. We designed the project to measure using lightweight panels, ...

With its roots as a leading OEM, ODM and IDM company, Hon Hai Technology Group (Foxconn) has leveraged its decades-long expertise to become an Innovation Integration Design Manufacturer (IIDM).

Foxconn is currently in the process of developing a massive field of 2,000 solar panels that will cover nearly eight acres of land around a retention pond at its Racine County campus in ...

Manufacturing giant Foxconn is making a significant leap into renewable energy with the installation of 2,000 solar panels across nearly eight acres at its Racine County campus in Mount ...

The photovoltaic industry is currently plagued by overcapacity, with solar panel prices falling by over two-thirds in the past two years. However, some analyses suggest that Foxconn will take action ...

It produces not only container frames but also racks that bind battery cells, battery management systems to prevent fires, power conversion devices, and even cables. Over 150 core ...

The project: Foxconn is developing a massive field of 2,000 solar panels covering nearly eight acres of land around a retention pond at its Racine County campus in Mount Pleasant, Wisconsin.

In July, Foxconn completed a major solar energy project at its Racine County campus in Mount Pleasant, Wisconsin. This project, developed in partnership with We Energies, is part of the larger ...
