KNC is unlimited in silencer sizing scheme and make fit-the-duct or opening sizes to meet any project need. KNC has streamlined, high capacity manufacturing that meets any delivery schedule.

Our turnkey solutions using an air intake and discharge silencers for industrial machines are very effective, especially for diesel generators, gas turbines, compressors, and combined heat and power ...

Vibro-Acoustics" intake silencers reduce noise transmission through the air intake openings for the generator room. Diferent conigurations are available to suit project specific needs. HTL casing ...

The LCGP silencer kit is engineered to reduce generator noise by approximately 50%-55%, making it a strong choice for home and residential area use. It features upgraded muffler grilles ...

IAC Acoustics delivers trusted sound control systems for power generation, including acoustic enclosures, doors, louvers, and HVAC silencers. Complete noise control solutions for gas turbine ...

Learn about the different types, classes, and grades of silencers and see if adding a silencer to your genset would be worthwhile.

We work with facility teams to reduce generator noise using engineered enclosures, silencers, and airflow solutions tailored to your site. Our systems are built for performance, durability, and code ...

eNoise Control Case Study detailing a luxury Caribbean resort needing generator room silencers for their noisy back-up gensets.

The generator noise control solution enables the consulting engineer to place a solution that will work in tight spaces and consider energy efficiency.

Reduce generator noise and emissions with silencers. Explore reactive, absorptive, and catalytic types, and

Generator room air inlet silencer

understand EGSA ratings for optimal sound attenuation.
