Developed and financed by Ezra Construction & Development Group Ltd., the 20-megawatt (MW) solar power plant and accompanying 14-megawatt-hour (MWh) Battery Energy ...

Located in Sudan, this project addresses the region's inadequate grid supply by implementing an integrated "photovoltaic + energy storage" solution to provide clients with stable, clean power.

There are plans to build new generation stations and to import electricity from neighboring Ethiopia, Sudan and Uganda, but the civil war has hindered progress in that direction.

Discover how Huawei's massive 1,000 MW solar project and 500 MWh battery storage system are transforming Sudan's energy landscape and driving sustainable growth.

July 2, 2025 (PORT SUDAN) - China's Huawei has proposed building solar power stations in Sudan with a capacity of over 1,000 megawatts (MW), the country's energy ministry announced on...

"The Huawei delegation revealed the company's intention to implement a huge project to build new solar power stations... to enhance Sudan's renewable energy sources," the statement said.

Discover how Huawei's massive 1,000 MW solar project and 500 MWh battery storage system are transforming Sudan's energy landscape and driving sustainable growth.

Why should South Sudan invest in solar power & battery storage?This project marks a significant achievement for South Sudan, reinforcing its commitment to renewable energy and environmental ...

Based on the characteristics of photovoltaic and energy storage power stations, Huawei Digital Power has summarized over 30 years of practical experience to build a "high-quality, high ...
