-----

Kendeil is an Italian manufacturer with over 40 years of experience in producing high-quality large can aluminum electrolytic capacitors and power film capacitors.

Are you looking for capacitors for automotive, inverters, UPS, renewable energy, inductive heating or soldering equipment? You can use Gruppo Energia capacitors for power electronics even in case of ...

ITELCOND is a manufacturer of aluminium electrolytic capacitors for electronic equipment, alternative energy (solar/wind), UPS, Inverter, Motor Control, Electromedical Equipment.

This review article comprehensively analyzes the basic charge storage mechanism in electrical double-layer capacitors (EDLCs) and pseudocapacitors, materials used as SC electrodes ...

EDLC capacitors are using high surface synthesized electrodes based on activated carbon, carbon nano-tubes or graphene. Alternatively, the electrodes can be made from cheap "bio ...

Super capacitors, with their ability to provide quick bursts of energy, can enhance the efficiency of various applications, from industrial machinery to consumer electronics. The Italian government has ...

It bridges the gap between electrolytic capacitors and rechargeable batteries. It typically stores 10 to 100 times more energy per unit mass or energy per unit volume than electrolytic capacitors, can accept ...

ITELCOND is an historical Italian company that produces high capacitance aluminium electrolytic capacitors for demanding applications, since 1976. During our first 40 years, we have spent a lot of ...

The life expectancy of supercapacitors is similar to aluminum electrolytic capacitors. The life of supercapacitors will double for every 10°C decrease in temperature or voltage by 0.1V.

Novac supercapacitors are custom solutions designed to meet the efficiency, safety, and performance needs of

multiple industries. Novac technology aims to revolutionize the supercapacitor market with ...
