In a bold step towards expanding its solar capabilities, Corning has acquired the 2 GW solar panel manufacturing facility that was previously owned by Chinese company JA Solar.

TOPCon not only improves PV power generation efficiency, but also effectively reduces its costs, further accelerating PV installations and enhancing the importance of PV in global low-carbon...

The 5.5-hectare agrivoltaic plant in Bruck an der Leitha, Austria, uses "sun catchers" to maximise energy yield and optimise grid stability. The system consists of movable PV modules that track the sun and ...

In the 2024 module manufacturer rankings, PV Tech head of research Finlay Colville placed JA Solar third in module shipments globally, behind only JinkoSolar and Trina Solar.

JA Solar is a high-quality brand with highly efficient solar panels that offers a good warranty. In fact, we awarded the company 2nd place in our list of the top 10 solar panel brands for 2025.

JA Solar Group fosters long-term relationships and ongoing collaboration with suppliers that share the commitment to eliminating all forms of forced labour and child labour, and encourages them to ...

JA Solar's Phoenix-based solar panel factory will now operate under American Panel Solutions, a new subsidiary that Corning owns. A company spokesperson confirmed the acquisition ...

Based on the outcome of the investigation and in reference to the SSI Principles, the SSI Board concluded that JA Solar's temporary suspension of membership should be lifted with immediate ...

As for the current performance range, most of JA Solar PV Panels are capable of performing between 21% to 23.8%. These are now one of the most efficient panels coming from Tier ...

JA Solar downgrades its photovoltaic panels

Corning, a materials science specialist, takes a step further into the U.S. solar supply chain with the acquisition of JA Solar's production facility in Phoenix.
