What is Japan's first energy storage project?

In 2015, we started Japan's first demonstration project covering energy storage connected to the power grid in the Koshikishima, Satsumasendai City, Kagoshima. This project is still operating in a stable manner today. One feature of our grid energy storage system is that it utilizes reused batteries from EVs.

What is Japan's energy storage policy?

As policy, technology, and decarbonization goals converge, Japan is positioning energy storage as a critical link between its climate targets and energy reliability. Japan's energy storage policy is anchored by the Ministry of Economy, Trade and Industry (METI), which outlined its ambitions in the 6th Strategic Energy Plan, adopted in 2021.

How is Japan's energy storage landscape changing?

Japan's energy storage landscape is shifting, pushed by household demand, corporate ESG mandates, and domestic battery manufacturing. The residential lithium-ion market, projected to grow at a CAGR of 33.9% through 2030, remains one of the fastest-expanding segments.

How big is Japan's battery storage market?

In the commercial space, Japan's battery storage market was valued at USD 593.2 million in 2023 and is projected to reach USD 4.15 billion by 2030. While commercial installations currently dominate revenues, industrial adoption is expected to scale faster. Utility-scale storage is also gaining ground.

The energy storage industry in Japan is also working on creating smart grids and microgrids to optimize energy storage and distribution. Some of the leading energy storage companies in Japan include ...

Japan's energy storage policies, market statistics, and trends--from METI's strategic plans and subsidy programs to deployment challenges.

You know how Japan's always been a technology powerhouse? Well, they're now racing to become Asia's energy storage hub. With the government's Green Transformation (GX) policy gaining ...

Top Energy Storage Companies in Japan The B2B platform for the best purchasing decision. Identify and compare relevant B2B manufacturers, suppliers and retailers

Energy Storage Sector in Japan has a total of 33 companies which include top companies like NICHICON, Ubiden and FDK.

Interview Key Social Issue | Mitigation of climate change Large-scale energy storage business Providing a platform that stores energy to promote the transition to renewable energy The ...

Top Japanese Energy Storage Lithium Battery Companies: Leaders in Innovation and Reliability Japan continues to dominate the global energy storage sector with cutting-edge lithium battery ...

Sonnedix's 38.7MW PV plant in Oita, where the BESS will be co-located. Image: Sonnedix Utility Osaka Gas and developer Sonnedix are installing what is claimed to be the largest ...

Energy Storage Tech startups in Japan There are 58 Energy Storage Tech startups in Japan which include Tsubame BHB, PowerX, GS Yuasa Corporation, ELIYY Power, LE System. Out ...

Japan's largest renewable battery energy storage system (BESS) project has broken ground in Kyushu under developers, Osaka Gas and Sonnedix.
