Who are the top rated energy storage companies in the world?

Lithium-ion companies have come out as the top-rated suppliers on a new long-duration energy storage (LDES) leaderboard, while CO2 Battery company Energy Dome is the highest non-lithium company. Power firm RWE is about to start building a 400MW/800MWh BESS project in Germany, among the largest in the country to reach the construction stage.

Should energy storage be integrated with multi-day storage?

The United States needs to integrate short-duration energy storage with multi-day storage to build a secure, reliable grid, Noon Energy's Aric Saunders writes. Thermal batteries are ready. Our electricity rules aren't.

Is energy storage a driving force for a cleaner power system?

The proliferation of energy storage in everything from utility-scale batteries to electric vehicles is a driving force in the transition to a cleaner, more distributed power system. This trendline includes the best Utility Dive reporting on this dynamic sector.

Which countries are deploying record-breaking battery storage capacity in 2025?

European Union countries deployed record-breaking battery storage capacity for the 12th consecutive year in 2025. US sodium-ion (Na-ion) battery technology company Unigrad has begun international shipments of its proprietary sodium cobalt oxide (NCO) cathode cells at commercial volume.

Aypa Power, a U.S.-based energy storage developer backed by Blackstone, has secured \$1.5 billion in warehouse facility financing to support the construction of utility-scale energy storage ...

Utility-scale leads with 4.9 GW, 63% YOY growth Residential installations rise 8% QOQ Headwinds could result in 10% drop in installations for utility-scale in 2027 Houston/WASHINGTON, ...

Energy-Storage.news Premium speaks to Daniel Dedrick, US-based BESS developer and operator, GridStor's CTO, about the company's strategies for navigating FEOC and Section 301 tariffs.

The US startup Lunar Energy has raised another \$232 million towards its goal of dominating the US home

energy storage market.

Developers accelerate construction as industry navigates foreign content restrictions and shifting clean energy priorities The U.S. energy storage sector is expected to continue expanding ...

The latest energy storage news for utility industry professionals

The U.S. Department of Energy's (DOE) Office of Electricity (OE) today announced more than \$30 million in awards and funding opportunities at the Energy Storage Grand Challenge (ESGC) ...

Latest news on energy storage projects, BESS, capacity expansion, and regulatory updates across Europe, US & Canada, Latin America, and Asia Pacific. Discover how energy storage ...

Across three major transactions in early 2026, at least \$2 billion in financing was recently announced, demonstrating the strength of energy storage as a core component of the U.S. power ...

The U.S. energy storage market achieved a new milestone in Q3 2024, driven by strong growth in grid-scale deployments. According to the latest U.S. Energy Storage Monitor report from ...
