Modular design with high energy density, compatible with 500V~1500V system. Back-to-back or left and right installation saving a footprint above 50%.

With the ability to scale up to 10 units in parallel, reaching a total capacity of 2610kWh, this system is the perfect solution for energy-intensive facilities, including factories, shopping malls, farms, microgrids, ...

We are committed to excellence in solar container and energy storage solutions. With complete control over our manufacturing process, we ensure the highest quality standards in every solar container ...

Highjoule Industrial & Commercial BESS -- Scalable, Reliable, Cost-Effective. Fully integrated from cells to cabinets, Providing premium energy storage solutions for businesses in the U.S. and worldwide.

The liquid cooling system ensures higher system efficiency and cell cycling up to 10,000 cycles. The liquid cooling system reduces system energy consumption by 20% and extends battery life by 10%.

EFFICIENT AND DURABLE Industry leading LFP cell technology up to 10,000 cycles with high thermal stability Liquid cooling capable for better efficiency and extended battery life cycle Higher energy ...

Highly integrated, High energy density design, Shoulder to shoulder back-to-back design, saving more than 50% of the floor area Full container delivery, factory pre-installation, full container transportation, ...

Engineered for high-capacity commercial and industrial applications, this all-in-one outdoor solution integrates lithium iron phosphate batteries, modular PCS, intelligent EMS/BMS, and ...

Each outdoor cabinet is IP56 constructed in a environmentally controlled liquid cooled cabinet including fire suppression. Multiple 373kWh cabinets can be installed together creating up to 4472kWh energy ...

Liquid-cooled solar container battery cabinet distance

Liquid-cooled energy storage container Core highlights: The liquid-cooled battery container is integrated with battery clusters, converging power distribution cabinets, liquid-cooled units, ...
