The Solmetric Module Lift is designed to help you safely and quickly transport a solar PV module on to a roof. The system uses your existing Werner or Louisville fiberglass extension ladder.

The Fluke Module Lift(TM) is designed to safely and quickly transport a PV module to a roof, streamlining the installation process of solar panels. This innovative tool enables you to lift solar modules to the ...

To ensure the safety of loading, unloading, unpacking. and storage of PV modules, please read this manual carefully. When you need to unpack and install the modules, you can search and download ...

Solar panel lifters are designed to facilitate the safe and efficient installation of solar panels. They minimize the physical strain on workers and reduce the risk of accidents related to ...

Powered Lift and Shift - This solar panel cleaning system is great for utility-scale installations where a tractor cannot be used or the ground is pure sand like in the Sahara or ...

Manual lifting of photovoltaic panels

Using an inclined hoist can minimise manual handling risks by transporting PV panels directly from the ground to the roofline, reducing strain on workers and improving site safety.

What is hazardous manual handling? Manual handling is work such as manually lifting, lowering, pushing, pulling, carrying, moving or holding solar panels and other heavy and bulky items.

This manual provides comprehensive guidelines for the safe and efficient Unloading and storage of solar photovoltaic (PV) modules manufactured and supplied by JAKSON Engineers Limited.

This guide serves as a reference for inspecting, transporting, unpacking, handling and storing LONGi PV solar modules to ensure safe practices for you and the modules.

Fireplace o Control options: DFS Variable Manual, Thermostat, Remote-Ready Millivolt and Variable Hi/Lo MCFS Remote-Ready Millivolt
