---

Multi-busbar(MBB) cell technology. low light conditions. and snow loads up to 5400Pa. ammonia and hail tests). Potential induced degradation (PID) resistance.

The 550-Watt Monocrystalline Solar Panel features substantial conversion efficiency and immense power output. This solar panel is equipped with exceptionally efficient (PERC) monocrystalline silicon ...

Based on the 210mm large-size silicon wafer and monocrystalline PERC cell, power output can exceed 550W.

? 550 Watts Monocrystalline PV Panel is made with high conversion efficiency cells, it has excellent performance in low light environments. ? Easy Installation with pre-drilled hole.

MBB and half-cell technology applied functions to improve energy density and bring higher output power. Products of this series passed salt spray and ammonia corrosion test certified by TUV. Attenuation in ...

Sun Labs Solar Panel Series 550W Full Black Monocrystalline Silicon ...

Sun Labs Solar Panel Series 550W Full Black Monocrystalline Silicon Photovoltaic Module. Detailed profile including pictures, certification details and manufacturer PDF.

All specifications are in accordance with standard EN 50380. Color differences of the modules relative to the figures as well as discolorations of/in the modules which do not impair their proper functioning are ...

Caution: For professional use only, the installation and handling of PV modules and cleaning modules require professional skills and should only be performed by qualified professionals, please read the ...

Trina Solar now distributes its PV products to over 100 countries all over the world. We are committed to building strategic, mutually beneficial collaborations with installers, developers, distributors and other ...

# Monocrystalline silicon photovoltaic panel 550 specifications

The specifications and characteristics contained in this datasheet may deviate slightly from our actual products due to the product developments and uncertainty of measurement devices. The ...
