---

Featuring a bifacial double-glass structure and black frame, their half-cell design improves durability, minimizes shading losses, and maximizes energy output from both sides, combining top-tier ...

Znshine Solar's Bifacial PV modules.

Unlock superior solar performance with the JA Solar 605W N-Type Bifacial Double Glass Solar Panel. This cutting-edge module leverages advanced N-type cell technology and an innovative bifacial ...

N bifacial dual glass Monocrystalline module PRODUCT: TSM-NEG21C.20 PRODUCT RANGE: 695-720W

The ZNSHINE SOLAR ZXMS-GPLDD132 705W is a TOPCON Bifacial Dual Glass high-performance photovoltaic module designed for utility-scale and large commercial solar installations.

Excellent Low Light Performance Our modules can also provide higher power output under low light conditions, such as sunset, cloudy, or dawn.

JST-FCMH-(710-740)W-HD MBB HALF-CELL N-Type HJT Bifacial Double Glass Monocrystalline PV Module 710-740W POWER RANGE 23.82% MAXIMUM EFFICIENCY

The product combines 182mm large-size silicon wafers with N-type, multi-busbar, half-cut, and improve the energy density of the module with high-density cell interconnect technology and bifacial technology.

Dual glass is the preferred structure for the rear side cover of the N-type modules because the glass-glass version can maximize the advantages of the N-type.

ZERO LID (Light Induced Degradation) N-type solar cell has no LID naturally which can increase power
