-----

We've replaced bulky heating pads and outdated battery technology, which hinder performance and mobility, with ultra-thin, micro-alloyed heating fibers. Lithium-ion battery technology maximizes ...

Nordic Batteries AS, founded in 2014 in Norway, specializes in advanced battery modules, packs, and energy storage systems for industrial sectors including construction, maritime, defense, and power ...

eENERGY 80 battery pack High C-rate compared to other LFP batteries Suitable for BESS and stationary applications Cells and modules produced in Norway from clean energy Ready for NextGen cell ...

You can use the battery to power a stronger light on your MTB during dark trail rides or use it to add extra light on your urban or touring bike, for better safety and visibility. This powerful battery gives ...

Battery modules and packs for applications with high energy and/or power requirements such as grid stabilization, light trucks and energy storage. Robust battery containers with batteries and charging ...

The eBOX was developed by ZEM in close collaboration with Moen Marin and Nordic Batteries to hybridize fishing vessels. Its compact size enables implementation in various environments without ...

Nordic Batteries enable the green shift by assembling and manufacturing battery packs and energy systems customized for maritime and demanding industrial applications. Nordic Batteries was ...

High-performance lithium battery packs ideal for industrial vehicles like forklifts, AGVs, and utility vehicles. A new generation of battery technology replacing traditional lead-acid batteries in industrial ...

Need an extra charger and battery? Fits all Nordic Heat vests and underwear/BaseLayer. As a starting point, choose your normal size - women should choose one size below what they usually wear. As a ...
