High-density manufacturing with integrated BMS design services. Get Your Prototype in Weeks. As a certified OEM/ODM battery pack specialist since 2007, we transform your complex power challenges ...

We build the batteries powering the global shift toward electrification. Whether you're retrofitting existing equipment or launching something entirely new, we design and make lithium-ion systems that meet ...

Recent innovations include 46-series cylindrical batteries with high-nickel cathode materials (NCA) and tabless design, offering higher energy density and improved thermal performance.

Discover 10 new lithium battery companies to watch in 2026 & find out how their solutions will impact your business!

The company is developing lithium refining capabilities with a new facility in Texas designed to produce 50 GWh of battery-grade lithium annually. This vertical integration approach ...

American-made lithium battery manufacturing with fully automated production. Custom battery packs for defense, medical, marine & industrial OEMs worldwide. Scalable solutions. Made in USA.

Investments in some aspects of the domestic battery manufacturing supply chain have occurred, and imbalances within the domestic supply chain may continue. The U.S. manufacturing ...

With more than 120+ years of collective experience in custom battery pack design and battery distribution, we have the knowledge and expertise to help you through your most complex design ...

"Gigafactory Nevada achieved record battery pack production. Model 3 and Model Y deliveries in the U.S. are now made with 100% U.S.-built battery packs," noted Tesla in its recent...

DLCPO DLCPO is a leading developer and producer of high-tech lithium-ion, li-polymer, lifepo4, and li-ion

Now making lithium battery packs

battery systems for consumer electronics, digital devices, GPS tracking systems, ...
