Does Octopus offer battery storage?

Octopus Electric Vehicles - offering EV leasing deals, home charging solutions and smart green tariffs. Recognising the crucial role of battery storage in the transition to a greener energy system, Octopus Energy have made the decision to offer battery storage solutions to its customers. It's a great move in our opinion.

Does Octopus Energy offer a battery storage tariff?

Octopus Energy offer a range of tariffs designed to help customers maximise the benefits of their battery storage systems. They state that you can save up to 90% on your electricity bill with an Octopus Energy solar panel and battery installation.

How much power do octopus solar panels have?

All of our panels have 450W power output. Optimise your solar system and store excess energy for later. With a battery you'll get access to Octopus smart tariffs that maximise savings, and can even eliminate electricity bills. Lightweight and weatherproof, with breakthrough technology to capture even more energy in low light.

What is intelligent octopus energy?

All you need to do is connect your home battery to Intelligent Octopus in the Octopus Energy app and we'll handle the rest. This program is a part of Octopus Energy's mission to build a better, more resilient, and greener grid. By participating, you've joined thousands of other Texans using their smart tech to power a better future.
