With Decree No. 345, the Cuban government aims to encourage consumers to install rooftop PV projects. The new rules will help to facilitate the sale of surplus power within the national...

The off-grid system, which was expertly configured and produced by SUNDTA, boasts an impressive array of high-performance components. It includes 20 wall-mounted lithium batteries, ...

As part of that strategy, the use of photovoltaic solar energy has been promoted in Cuba, for which - since the beginning of 2024 - a broad investment process consisting of two projects is ...

Experimental data recorded during eight months in a plant connected to the Cuban National Electric System are employed to examined and check the proposed approach. Our findings provide a ...

In Cuba, one of the alternatives that has been proposed to reduce these losses is the distribution of photovoltaic (PV) power plants of up to 3 MWp in them. This paper presents a new hybrid ...

Cuba launches new solar parks aiming for 2,000 MW by 2028, tackling energy crisis with Chinese-backed tech and renewable energy investments.

Alfredo Lopez, general director of the state-run energy company Union Electrica (UNE), told Granma newspaper that there are 26 photovoltaic solar parks in several stages of construction in ...

This document analyzes a grid-connected photovoltaic (PV) system. It discusses modeling different components of the system like the PV module, DC-DC converter, maximum power point tracker, DC ...

Despite official declarations, doubts linger regarding the feasibility of the project due to inadequate financing, lack of technology, and the structural deterioration of Cuba's energy system.
