Why did Pakistan adopt solar power?

Photo by Hexzain /Shutterstock. Solar adoption in Pakistan resulted from a "perfect storm" of supply and demand. On the demand side,an unprecedented hike in electricity tariffs -- up 155% in just three years -- rendered grid power unaffordable for many people and businesses.

Where can solar panels be seen in Islamabad?

Solar panels can be seen on the rooftops of housesin Islamabad. Pakistan is in the midst of a solar boom that has rapidly turned the country into one of the world's largest new adopters of this renewable energy source,according to data from the global energy think tank Ember.

Does Pakistan have a solar power grid?

Despite importing record volumes of solar panels,Pakistan's official grid-connected solar capacity remains far lower,indicating that much of the new solar is operating off-grid or behind the meter,where it escapes inclusion in national electricity statistics.

Why are solar panels popular in Pakistan?

Solar panels in agricultural fields have become popular in Pakistan as an inexpensive way of generating electricityfor solar pumps that irrigate the land. Photo by GreenThumbShots /Shutterstock.
