Explore answers to the most common questions about choosing Paksolar for your solar energy needs in Pakistan. Learn why thousands trust us for on-grid, off-grid, and hybrid solar systems--whether for ...

Paksolar provides trusted turnkey solar solutions in Karachi and Pakistan. Request your free, no-obligation quote for homes, businesses, and agriculture.

Pakistan's solar boom grows out of a decades-long power sector crisis, which has caused many Pakistanis to lose faith in the state's ability to consistently provide reliable electricity.

OverviewHistoryGovernment policyProjectsFarmingChallengesPublic receptionAs of 2025, solar power is the largest electricity source in Pakistan, accounting for more than 25% of total production in 2025. In 2024, solar power installations in the country grew at the highest rate in the world, with solar installations providing an estimated one-third of the country's entire generating capacity added during the year. As electricity prices doubled from 2021 to 2024, and Chinese solar panel manufacturers with manufacturing overcapacity cut prices, Pakistanis have taken to installing solar pa...
