In October 2024, the City Council for Escondido, California, approved the adoption of an Interim Ordinance to prohibit new commercial battery energy storage systems (BESS) within the City ...

Massachusetts is making a big push for batteries -- not the kind you put in a flashlight, but powerful, tractor trailer-sized batteries that store energy for the electric grid. State...

Battery energy storage systems (BESS) are growing rapidly on the U.S. grid, but the technology has faced some headwinds. The primary technology being installed, lithium-ion storage ...

New Yorkers are lining up in opposition to dozens of new lithium-ion battery storage facilities planned across the Big Apple and beyond, over fears they could spark toxic infernos in...

Research gaps in environmental life cycle assessments of lithium ion batteries for grid-scale stationary energy storage systems: End-of-life options and other issues.

In January, the coastal California town of Moss Landing witnessed the most destructive battery fire in U.S. history. Now, Gov. Gavin Newsom (D) has signed SB 283, a law designed to ...

Lithium-ion batteries are increasingly being used to store power for electrical grids, but some localities are concerned about fire risks.

While batteries can provide valuable short-term support to the grid, they cannot function as long-duration energy storage (LDES) solutions or scale to the levels needed to back up large ...

The Massachusetts legislature is considering three proposed bills that would significantly obstruct development of new battery energy storage systems in the state.
