UC San Diego is partnering with Redoxblox to demonstrate a 10 MWh thermochemical energy storage system, providing 24+ hours of emergency power and carbon-free cooling for ...

The Water Authority and City of San Diego are evaluating the feasibility of developing a pumped storage energy project at the City of San Diego's San Vicente Reservoir near Lakeside.

WATER AUTHORITY AND CITY OF SAN DIEGO PARTNERSHIP operated by the City of San Diego. The Water Authority completed raising the San Vicente Dam in 2014, and now owns 157,000 acre ...

A green hybrid concept based on a combination of liquid air energy storage with concentrated solar power technology is evaluated through simulations to quantify the improvements ...

Explore UC San Diego's state-of-the-art energy research labs, microgrid, and testing facilities for energy storage, grid integration, and renewable technologies.

The West Side Canal facility now boasts 231 MW of energy storage capacity and is the largest asset in SDG&E's utility-owned battery storage portfolio. This expansion represents a ...

We have around 21 BESS and microgrid sites with 442 megawatts (MW) of utility-owned energy storage and another 40+ MW in development.

Ice Cub Energy Storage offers exceptional cooling solutions through thermal energy storage to homes and commercial properties in San Diego.

Arevon is building an energy storage project in the Barrio Logan community of San Diego to support local energy reliability and maximize the use of renewable energy sources like solar and ...

San Diego Liquid Cooling Energy Storage Station

Cordia delivers efficient, resilient centralized energy systems for San Diego's downtown businesses - cutting costs, reducing emissions and supporting clean energy goals.
