Begin your research with our simple and straightforward FERC Electric Quarterly Reports (EQR) and EIA Bulk Data search tools. We've aggregated all available U.S. electric generation data and sales ...

A directory of all photovoltaic manufacturing companies and installers in the world - including solar panels, cells, production equipment and components.

Browse the NLR Data Catalog's entire listing of data submissions from NLR researchers and analysts.

Organize solar panels, inverters, batteries, and accessories with detailed specifications, images, and pricing information. Upload and organize product datasheets, installation guides, warranties, and ...

Discover the top solar energy data for 2026. Find reliable and up-to-date solar energy datasets and databases, including solar farm and solar power datasets. Explore on Datarade.ai for the best providers.

The Energy Commission's Solar Equipment Lists include equipment that meets established national safety and performance standards. These lists provide information and data that ...

The United States Large-Scale Solar Photovoltaic Database (USPVDB) provides the locations and array boundaries of U.S. photovoltaic (PV) facilities with capacity of 1 megawatt or more.

The NREL PVDAQ is a large-scale time-series database containing system metadata and performance data from a variety of experimental PV sites and commercial public PV...

The survey Form EIA-860 collects generator-level specific information about existing and planned generators and associated environmental equipment at electric power plants with 1 megawatt or ...

Solar energy in the United States is booming. Along with our partners at Wood Mackenzie Power &

Solar power generation equipment data directory

Renewables, SEIA tracks trends and trajectories in the solar industry that demonstrate the diverse ...
