-----

Under President Donald Trump, routine approvals have slowed or stopped, leaving hundreds of projects in limbo and raising the risk of higher power prices and tighter electricity supplies.

The Trump administration's cancellation of the largest solar project in the United States has sparked confusion and concern among Republicans and Democrats alike.

The extra layer of scrutiny for wind and solar contrasts with actions by the Trump administration to make it easier and cheaper for companies to produce oil, coal, gas and nuclear power.

More than \$14 billion in clean energy investments in the U.S. have been canceled or delayed this year, according to an analysis released Thursday, as President Donald Trump's pending megabill has ...

The Trump administration has canceled the proposed Esmeralda 7 Solar Project in Nevada that would have been among the world's largest solar power facilities.

Just one solar project has been approved on federal lands since Trump took office in January, and none have been permitted since July when Interior Secretary Doug Burgum ordered ...

A proposal to build one of the largest solar projects in the U.S. has been abruptly halted by the Trump administration -- a move critics say undermines the nation's renewable energy transition.

They predicted the Esmeralda 7 project -- by far the largest solar project that had moved through the permitting process under former President Joe Biden's Interior Department -- won't be ...

One of the most ambitious solar projects in history is quietly heading for shutdown after just a decade of operation. The Ivanpah Solar Power Facility in California's Mojave Desert was once...

Since taking office, the Trump Administration has paused permits on all new wind and solar projects on public
