Take a virtual tour of five remarkable renewable energy projects around the world, each showcasing innovative technology, ambitious scale and a commitment to a cleaner, more ...

The Gujarat Hybrid Renewable Energy Park is set to be a global landmark in renewable energy infrastructure, targeting 30 GW of combined solar and wind power generation. Located in the ...

Concentrating solar power (CSP) projects in United States are listed below alphabetical by project name. You can browse a project profile by clicking on the project name. You can also access ...

These projects, from solar-powered airports to pioneering solar flights, not only highlight the technological advancements in renewable energy but also underscore a collective commitment to ...

Discover the world's biggest operational solar farms and the mega projects set to reshape tomorrow's renewable energy landscape.

The Major Solar Projects List is a database of all ground-mounted solar projects, 1 MW and above, that are either operating, under construction or under development.

Solar water heaters, solar cookers, sun-tracking solar panels, solar-powered refrigerators, etc. are some of the best examples for solar energy projects. Here, we are listing out ...

The database should help utilities, financiers, manufacturers, and anyone interested in renewable energy options to find information on the growing number of concentrating solar power projects ...

The International Space Station (ISS), for example, relies on solar arrays for power generation. Its eight solar array wings can generate about 240kW of power in direct sunlight, or ...
