-----

Built with advanced LiFePO<sub>4</sub> (LFP) technology, the GSL HV-R series ensures superior safety, long cycle life, and high energy density, offering a dependable power solution for enterprises ...

Powerful 50KW/120KWh hybrid energy storage solution with integrated inverter, BMS & EMS. LFP batteries, redundancy design. Expandable up to 120KWh.

This document is meant to be used as a customizable template for federal government agencies seeking to procure lithium-ion battery energy storage systems (BESS).

It provides a cabinet-level battery management system and supports a maximum of 15 cabinets connected in parallel to meet MW-level UPS backup power requirements. Allows users to ...

Delong 120kWh energy storage cabinet is equipped with a battery, inverter, high-voltage box, air conditioner, and fire protection system. The complete all-in-one design provides you with ultimate ...

A new generation of energy storage system solutions with high energy density, safety, maintainability, flexibility, long cycle life and efficiency in a standard modular design project.

Important Safety Instructions -- SAVE THESE INSTRUCTIONS. Read these instructions carefully and look at the equipment to become familiar with it before trying to install, operate, service or maintain it.

The modular design allows a choice of battery storage size with each energy block containing 12kWh of battery storage capacity. A minimum of 4 battery modules are required providing 48kWh. Up to an ...
