Introducing a next-generation modular and transformerless UPS design, Vertiv(TM) Liebert® APM2, a feature-rich high-density UPS that brings exceptional and innovative features for mission-critical ...

Highly efficient, scalable 200 to 500 kVA/kW 3-phase UPS featuring modular, redundant design and low TCO for medium and large data centers and mission critical environments.

Three-phase UPS systems protect high-power installations like data centers, hospitals, and industrial operations, ensuring reliability for core infrastructure.

The Eaton 93PM UPS is the perfect three-phase white or gray space solution for modern data centers. The 93PM is compatible with lithium-ion UPS batteries, which are 40 percent smaller than VRLA ...

Legrand offers universal battery cabinets for all three-phase Legrand Uninterruptible Power Supply (UPS) models ranging from 10kVA to 800kVA power output. They are designed to accommodate ...

CyberPower 3-Phase Modular UPS Battery Cabinets are designed to accommodate several battery modules and can be configured into tower, side-by-side formations, or easily mounted in a rack.

C& D Technologies, a market leader in energy storage, expands its portfolio with the introduction of highly-engineered, factory-assembled battery cabinets that allow C& D to offer integrated battery and ...

High performance 3-Phase power protection for any size data center and other critical applications.

When you want power protection for a data center, production line, or any other type of critical process, ABB's UPS Energy Storage Solutions provides the peace of mind and the performance you need.

The Eaton 93PM UPS is the perfect three-phase white or gray space solution for modern data centers. The

Three-phase battery cabinet for hospital data center

93PM is compatible with lithium-ion UPS batteries, which are 40 percent smaller than VRLA ...
