How can government support energy storage in Vietnam?

Government support through policy reformations, training and upskilling programs, well-planned roadmaps, awareness campaigns, and other initiatives can further attract private investment and international support.

Emulating Vietnam's Strategic Approach to Energy Storage

Can battery energy storage systems stabilize Vietnam's grid?

Sunita Dubey and Hyunjung Lee share how Vietnam is leveraging Battery Energy Storage Systems to stabilize their grid and accelerate the energy transition.

Will Vietnam's first pumped hydropower plant boost national energy security?

This will be Vietnam's first pumped storage hydropower plant and one of EVN's key national energy projects this year. The plant is expected to boost national energy security and support Vietnam's transition to a greener, more sustainable economy.

Why should Vietnam invest in a hydropower plant?

The plant is expected to boost national energy security and support Vietnam's transition to a greener, more sustainable economy. Pumped storage hydropower operates like a giant battery, storing excess electricity during off-peak hours and releasing it when demand is high.

One of the key highlights of Vietnam's revised Power Development Plan VIII (PDP8) is the significant increase in the targets for Battery Energy Storage Systems (BESS).

Bangkok, July 2025 Vietnam's Revised Power Development Plan 8 (PDP8), approved in April 2025, marks a significant shift toward renewable energy and energy storage to achieve net-zero emissions ...

(VOVWORLD) - Last weekend, Vietnam Electricity (EVN) began construction on Phase 2 of the Bac Ai Pumped Storage Hydropower Plant in Ninh Thuan province. This will be Vietnam's first ...

The Institute of Energy (under the Ministry of Industry and Trade) presented Viet Nam's policy directions, highlighting the role of energy storage in demand response and improving the ...

Vietnam Energy Storage Power Station Project

The project's official inauguration event held in December. Image: VinGroup. A green energy subsidiary of Japanese conglomerate Marubeni has brought online a megawatt-scale battery ...

A battery energy storage system (BESS) will be retrofitted to a utility-scale solar PV power plant in Vietnam, in a pilot project aimed at supporting the spread of renewable energy in the ...

EVN's 50 MW Battery Energy Storage Systems (BESS) pilot project, in collaboration with ADB and GEAPP, aims for 300 MW by 2030. Vietnam is the fastest-growing energy market in Asia, ...

Vietnam is one of the first three countries selected for a pilot program under a new partnership initiative between the Asian Development Bank (ADB) and the Global Energy Alliance for ...

Vietnam sharpened its national energy storage roadmap this week as government leaders and industrial operators aligned on BESS deployment.

Project Overview and Background This project was delivered for a manufacturing enterprise in Vietnam and features a lithium iron phosphate (LiFePO₄) battery energy storage system ...
